Michigan Regional Council of Carpenters • U.B.C.J.A.

September 13, 2011

To Whom It May Concern:

The Michigan Regional Council of Carpenters supports the use of E-Verify and supports legislation that would mandate the use of E-Verify on State projects. E-Verify is the most efficient and cost effective way to process I-9 documentation which assures that workers have the legal right to work in the United States of America.

Should you have any questions or concerns, please contact me.

Sincerely,

Nick McCreary
Political Director
Michigan Regional Council of Carpenters
